Where National Service Scheme gives an opportunity to the youth to participate in the development of the nation on the other hand the values of character, discipline and hard work and in shaping those into dynamic and responsible citizens of the country had been well recognized. So the main objective of this practice is to sensitize our youth toward some social issues and to connect our students to the society through different activities.

Best Practice-2

ICT Tools in Smart Class Rooms

We are living in a rapidly changing world. After the digital revolution, the academic world was also affected by this change. The institution is well aware of the fast-changing environment. In this dynamic world, if we want our students to compete and survive then we must provide computer proficiency to our students besides their regular course material. The College is using ICT tools for teaching and learning through ICT- enabled classrooms & smart classes. More use of ICT in teaching and learning is the main concern of the college to fill the gap of the digital divide between the students.
